

Irish Driving Test Full Question Set

Generated from the cleaned 2026-safe deck.

Speed Limits

Q: What speed limit usually applies in a built-up area in Ireland?

A: 50 km/h unless a different posted limit applies.

Q: Since 7 February 2025, what is the default speed limit on many rural local roads?

A: 60 km/h.

Q: What speed limit commonly applies on regional roads?

A: 80 km/h unless signs show otherwise.

Q: What speed limit commonly applies on national roads?

A: 100 km/h unless signs show otherwise.

Q: What speed limit commonly applies on motorways?

A: 120 km/h unless signs show otherwise.

Q: If a posted speed limit is different from the default limit, which must you obey?

A: The posted speed limit.

Right Of Way

Q: Who has right of way at a roundabout?

A: Traffic already on the roundabout.

Q: Who has priority at an unmarked crossroads where roads are of equal importance?

A: Give way to traffic from the right and to traffic already on the junction.

Junctions

Q: What must you do at a stop sign?

A: Come to a complete stop and yield before moving off.

Q: What does a yield sign mean?

A: Give way to traffic with priority and stop if necessary.

Traffic Lights

Q: What does a flashing amber traffic light mean?

A: Proceed with caution only if the crossing or junction is clear; pedestrians have priority.

Q: What should you do at a steady amber traffic light?

A: Stop unless it is unsafe to do so.

Q: What do flashing red lights at a railway crossing mean?

A: Stop; a train is approaching or the crossing is operating.

Q: What is a filter light?

A: A green or amber arrow that lets you proceed in that direction if it is safe and the way is clear.

Q: When should you use dipped headlights?

A: When meeting traffic, following closely, on continuously lit roads, and in fog, snow, dusk, dawn, or poor visibility.

Q: What should you do if you are dazzled by headlights?

A: Slow down and stop if necessary; watch for pedestrians or cyclists and look towards the left verge if the dazzle is from oncoming traffic.

Crossings

Q: What do white zig-zag lines at a zebra crossing mean?

A: No parking and no overtaking.

Q: How far from a pedestrian crossing should you not park?

A: Within 15 metres before it or 5 metres after it.

Q: What must you do when a school warden shows the STOP sign?

A: Stop and wait until children have crossed and the warden allows traffic to move again.

Q: What is the difference between a pelican crossing and a zebra crossing?

A: A pelican crossing is controlled by lights; a zebra crossing uses flashing amber beacons and pedestrian priority.

Q: What does an island in the middle of a pedestrian crossing mean?

A: Treat each side of a zebra crossing as separate; a staggered pelican crossing is also treated as two crossings.

Road Markings

Q: What are the rules for a yellow box junction?

A: Do not enter unless you can clear it without stopping, except when turning right and waiting for a safe gap without blocking traffic with priority.

Q: What does a broken white line in the centre of the road mean?

A: You may cross it only if it is safe to do so.

Q: What does a continuous white line in the centre of the road mean?

A: Keep left and do not cross it except for access or in an emergency.

Q: What do double broken white lines along the centre of the road mean?

A: They warn that continuous white lines are ahead; do not cross them unless it is safe.

Q: If there is a continuous and a broken white line together, which line do you obey?

A: The line nearest to you.

Q: What does a broken yellow line along the side of the road mean?

A: It marks a hard shoulder, normally for pedestrians and cyclists; you may pull in briefly to let faster traffic pass if it is safe.

Q: What does a single continuous yellow line along the side of the road mean?

A: No parking during the times shown.

Q: What do double continuous yellow lines at the side of the road mean?

A: No parking at any time.

Q: What are the road markings for no entry?

A: A continuous and a broken white line with the words NO ENTRY.

Parking

Q: How far from a junction should you not park?

A: Within 5 metres of the junction.

Q: How close to the kerb should you normally park?

A: Within 45 cm.

Signs

Q: What shape are warning signs in Ireland?

A: Diamond-shaped with a yellow background.

Q: What shape are most regulatory signs in Ireland?

A: Circular.

Q: What colour are motorway signs?

A: Blue.

Q: What colour are national road signs?

A: Green.

Q: What colour are regional and local road signs?

A: White with black text.

Overtaking

Q: When another driver is overtaking you, what must you not do?

A: Increase your speed.

Q: When may you overtake on the left?

A: When the driver ahead has moved right and signalled right, when you have signalled left, or in slow-moving traffic where the left lane is moving faster.

Q: Give examples of places where you should not overtake.

A: Near a bend, hill crest, hump-back bridge, continuous white line, entrance, taxi rank, or where the road is too narrow or visibility is poor.

Motorway

Q: When may you use the hard shoulder on a motorway?

A: In an emergency only.

Q: Which lane should you normally use on a motorway?

A: The left-hand lane unless overtaking or directed otherwise by signs or road markings.

Q: What should you do if you break down on a motorway?

A: Pull onto the hard shoulder if possible, use your hazard lights, get help, and do not attempt roadside repairs unless it is necessary and safe.

Safe Driving

Q: What is the 2-second rule?

A: Leave at least 2 seconds in dry conditions, at least 4 seconds in wet conditions, and more in ice or poor conditions.

Q: How does wet weather affect braking distance?

A: It can at least double braking distance.

Q: What is aquaplaning?

A: When a layer of water causes the tyres to lose contact with the road, reducing steering and braking control.

Q: What is tailgating?

A: Driving too close to the vehicle in front.

Technical Checks

Q: What is the legal minimum tyre tread depth for a car?

A: 1.6 mm across the central three-quarters of the tread.

Q: Name 3 technical checks you should be able to describe for the test.

A: Examples: tyres, lights and indicators, oil, coolant, brake fluid, brakes, steering, or horn.

Secondary Controls

Q: Name 3 secondary controls you may be asked to demonstrate on the test.

A: Examples: wipers, washers, demister, rear window heater, lights, or hazard lights.

Learner Rules

Q: What is the minimum age for a Category B learner permit?

A: 17.

Q: What must a learner driver display on the vehicle?

A: L-plates on the front and rear.

Q: Must a learner driver be accompanied?

A: Yes. By someone with a full, valid licence in the same category for at least 2 years.

Safety Rules

Q: What is the seatbelt rule in a car?

A: Everyone must wear a seatbelt where one is fitted; the driver is responsible for passengers under 17.

Q: What is the rule on mobile phones while driving?

A: It is illegal to hold or use a hand-held mobile phone while driving; the safest option is not to use any phone while driving.

Q: What is the alcohol limit for learner, novice, and professional drivers?

A: 20 mg of alcohol per 100 ml of blood.

Q: What is the alcohol limit for most other drivers?

A: 50 mg of alcohol per 100 ml of blood.

Q: What should you do before opening your car door?

A: Check mirrors, look over your shoulder, and watch for cyclists or pedestrians.

Bus Lanes

Q: What is the difference between a with-flow and a contra-flow bus lane?

A: A with-flow lane runs with the traffic and can be used by buses, bicycles and taxis; a contra-flow lane runs against the traffic and is generally only for buses unless signs also allow cyclists.

Positioning

Q: What position should you take for a right turn in a one-way street?

A: As close as practicable to the right-hand side.

Manoeuvres

Q: Where would you never make a U-turn?

A: In a one-way street, where continuous white lines apply, or where a sign prohibits it.

Dual Carriageway

Q: When following the road ahead on a multi-lane dual carriageway, which lane should you normally use?

A: Lane 1, the left-hand driving lane, unless signs or road markings say otherwise.

Vehicle Control

Q: What is coasting and why is it dangerous?

A: Coasting is driving with the clutch down or in neutral; it reduces your control of the vehicle.

Vehicle

Q: What is the purpose of the NCT?

A: It is a basic roadworthiness and safety check for vehicles over 4 years old.

Awareness

Q: What should you look out for on country roads?

A: Pedestrians, cyclists, animals, mud, concealed entrances, bends, and slow-moving farm machinery.
